

## Channeling & Mediumship Certification Course

### FAQ

Q. What makes this course different than other Mediumship courses?

A. This course teaches you both Channeling and Mediumship. This type of Channeling is not only receiving messages, but asking for clarity and additional information in two-way conversations.

Q. What if I can't connect and receive messages?

A. With my proven process, every student has been able to connect and receive messages and have two-way conversations with Spirit and my guides, who work with the student.

Q. What if Mediumship doesn't happen for me?

A. Using my process, my students have been gifted with the ability to connect with souls who have passed over. This becomes clear when delivering messages during Channeling practice sessions.

Q. What if I only want to learn Channeling?

A. The Channeling course is the foundational course, and students who have no interest in Mediumship, are welcome to take only the Level One course. During the class, we ask my guidance team to "turn off" their Mediumship connections.

Q. What if no one around me believes in Channeling/Mediumship? How can I practice and grow my skills?

A. During the courses, practice is built into the sessions. At the end of the course the 1 year development circle provides a safe place to enhance/develop your skills with practice opportunities.

Q. What if I have no or very little experience?

A. My students have been those who have studied many spiritual modalities, as well as those who are beginning down their spiritual modality experience with my courses.
